QINGJUAN PRACTICE

# Practice 02

Academic · computer view

## What is inside

Listening · canal hire, a film weekend, a poster, kelp

Reading · a night train, a mending studio, a footbridge

Writing · a process diagram and an essay

Original practice material written for this desk.

Not an official IELTS test. Not affiliated with Cambridge, the British Council, IDP, or the IELTS partners. Do not treat the fictional towns, figures, or figures in the charts as reported fact.

# Listening

## Section 1 · Questions 1·10

Complete the booking form. Write ONE WORD AND/OR A NUMBER for each answer.

1. Surname: _____

2. Phone: _____

3. Passengers: _____ adults

4. Boat name: _____

5. Fixed bed is at the _____.

6. Check-in time: _____

7. Customers must bring _____.

8. The office will lend a _____.

9. Parking: the _____ yard

10. Price for two nights: £ _____

## Section 2 · Questions 11·20

Complete the notes or choose the correct letter, A, B, or C.

11. The weekend opens at the _____.

12. One screening costs £ _____.

13. A weekend pass costs £ _____.

14. Short films are shown in the _____.

15. What is true about seating?
    A Seats can be reserved online.
    B Seating is unreserved.
    C Only pass holders may sit.

16. What is not allowed inside the building?
    A Hot food.
    B Children.
    C Recorded music.

17. Soup is sold at the _____.

18. Filmmakers can get comments at the _____ talk.

19. Volunteers wear a yellow _____.

20. Lost property is kept at the ticket _____.

## Section 3 · Questions 21·30

Choose the correct letter, or write ONE WORD AND/OR A NUMBER.

21. Noah's title is _____ before you revise.

22. The study followed _____ students.

23. The nap in the study lasted _____ minutes.

24. The test in the study was a _____ test.

25. What does Priya refuse to add?
    A A grammar test.
    B The title.
    C The nap length.

26. The source must be printed in _____-point type.

27. Priya will print the poster at _____.

28. Which paper will they use?
    A White.
    B Pale blue.
    C Grey.

29. What do they disagree about?
    A The photograph.
    B The library closing time.
    C The title.

30. Priya will email the tutor the _____.

**Section 4 · Questions 31·40**

Complete the notes. Write ONE WORD ONLY for each answer. The coast in this lecture is fictional.

31. Kelp needs _____ water.

32. The 1980s loss followed a _____ boom.

33. A second problem was the _____.

34. The plan began with a winter ban on _____.

35. Divers removed urchins by _____.

36. Local fishers call the returning plants forest _____.

37. Fishers do not want _____ inside the new beds.

38. Success is measured by the return of _____.

39. Last spring the team counted 900 adult _____.

40. The next threat they are watching is _____.

# Reading

## Reading Passage 1 · The Night Train Returns to Lark

You should spend about 20 minutes on Questions 1·13.

A The night train between Lark and the coast ran for forty years and then stopped in 1997, when the operator decided the carriages cost more to heat than the tickets brought in. For a long time the night arrival was only a story told by people who had used it to reach an early boat.

B In 2023 a small company called Low Lamp put one train back, and only on Friday and Saturday. The trial was deliberately narrow. If the carriages were empty, the company could end the experiment without having promised a daily service.

C The fare is 31 pounds and it includes a bunk, a blanket, and tea at dawn. It does not include breakfast. Passengers who want a meal buy it at the harbour kiosk after they get off, which the company prefers, because a kitchen car would need staff the trial cannot pay.

D Lark station had to change before the first departure. The old waiting room had no step-free route to the platform, so Low Lamp paid for a short ramp and a light over the door. Nothing else in the building was restored. The clock still stops at ten past four.

E Staff do not sleep on the train. A conductor stays awake, and a second worker meets the train at the coast. The company rejected bunks for staff because the spare compartment is used for luggage that will not fit in the racks, including bicycles.

F The timetable is the main complaint. The train leaves Lark at 23:40, which misses the last bus from the villages, and it arrives at 5:10, earlier than some guests would like. Low Lamp has said it will not move the departure until the trial has run a full summer. The figures for May have not been released.

### Questions 1·6

Choose the correct heading for paragraphs A·F. There are more headings than paragraphs.

1. Paragraph A
   - i How the original night service ended
   - ii Why the seats were made narrower
   - iii Complaints about the timetable
   - iv What the night fare includes
   - v A trial that was limited to weekends
   - vi Staff who sleep on the train
   - vii Luggage that does not fit the racks
   - viii How the town station was altered

2. Paragraph B
   - i How the original night service ended
   - ii Why the seats were made narrower
   - iii Complaints about the timetable
   - iv What the night fare includes
   - v A trial that was limited to weekends
   - vi Staff who sleep on the train
   - vii Luggage that does not fit the racks
   - viii How the town station was altered

3. Paragraph C
   i How the original night service ended
   ii Why the seats were made narrower
   iii Complaints about the timetable
   iv What the night fare includes
   v A trial that was limited to weekends
   vi Staff who sleep on the train
   vii Luggage that does not fit the racks
   viii How the town station was altered

4. Paragraph D
   i How the original night service ended
   ii Why the seats were made narrower
   iii Complaints about the timetable
   iv What the night fare includes
   v A trial that was limited to weekends
   vi Staff who sleep on the train
   vii Luggage that does not fit the racks
   viii How the town station was altered

5. Paragraph E
   i How the original night service ended
   ii Why the seats were made narrower
   iii Complaints about the timetable
   iv What the night fare includes
   v A trial that was limited to weekends
   vi Staff who sleep on the train
   vii Luggage that does not fit the racks
   viii How the town station was altered

6. Paragraph F
   i How the original night service ended
   ii Why the seats were made narrower
   iii Complaints about the timetable
   iv What the night fare includes
   v A trial that was limited to weekends
   vi Staff who sleep on the train
   vii Luggage that does not fit the racks
   viii How the town station was altered

**Questions 7·10**

Write TRUE, FALSE, or NOT GIVEN.

7. The night train stopped in 1997.

8. The fare includes breakfast.

9. Low Lamp restored the station clock.

10. The May passenger figures were higher than Low Lamp expected.

### Questions 11–13

Write NO MORE THAN TWO WORDS AND/OR A NUMBER from the passage.

11. The fare is _____ pounds.

12. The train leaves Lark at _____.

13. Bicycles travel in the spare _____.

## Reading Passage 2 · Mending as a Design Skill

You should spend about 20 minutes on Questions 14–26.

At the Northline studio, mending is taught before cutting. New students want to make a coat. The tutor, Imani Shah, makes them repair one first. Her reason is practical: a person who cannot see how a seam failed will build the same failure into a new garment. The repair room smells of wool and machine oil, and the radio is kept low because Shah wants the stitch counted out loud.

Each student is given a damaged jacket from the town's swap rail and a card listing what may be replaced. Buttons may be changed. Linings may not, unless the lining has torn, because a new lining makes the jacket look rebuilt rather than mended. The visible patch, Shah says, is the point. It tells the next wearer what happened.

The course lasts nine weeks. In week four the students photograph every repair for a wall in the lobby. The photographs are not graded for beauty. They are graded for whether a stranger could copy the repair from the picture. Shah calls this the bus test: if someone waiting for a bus cannot follow it, the photo has failed.

Local tailors were doubtful at first. They thought the studio would do cheap repairs and take their customers. Shah now sends any jacket that needs a machine the studio does not own, and the tailors send students the torn cuffs they have no time for. The arrangement is written on a single page pinned by the door, and it is reviewed every January.

### Questions 14–20

Write TRUE, FALSE, or NOT GIVEN.

14. New students begin by making a coat.

15. Shah asks students to count stitches aloud.

16. Buttons on the practice jackets may be changed.

17. A torn lining may be replaced.

18. The lobby photographs are graded for beauty.

19. The bus test uses a picture taken at a bus stop.

20. Shah trained as a tailor in Northline.

### Questions 21–23

Choose the correct letter, A, B, or C.

21. Why does Shah teach mending first?
    A The studio cannot afford new cloth.
    B A maker who misses a failed seam will repeat it.
    C The town has banned new coats.

22. A visible patch is required because it
    A is faster than an invisible one.
    B tells the next wearer what happened.
    C matches the studio uniform.

23. Tailors now
    A refuse to speak to the studio.
    B send the studio work they have no time for.
    C grade the students' photographs.

### Questions 24·26

Write NO MORE THAN TWO WORDS AND/OR A NUMBER from the passage.

24. The course lasts _____ weeks.

25. Photographs go up in week _____.

26. The written arrangement is reviewed every _____.

### Reading Passage 3 · Why the Lark Footbridge Sways

You should spend about 20 minutes on Questions 27·40.

The Lark Footbridge opened in 2011 to join the station to the Saturday market. It is a thin steel span, chosen because a heavier bridge would have needed a pier in the channel where the ferry turns. On the first market day the deck began to sway, not in a storm but at noon, when the bridge was simply full.

Engineers from the harbour board filmed the crowd and noticed that people had started to walk in step. A small sideways movement made walkers put their feet down together, and those footsteps added to the movement. The bridge was not weak. It was matched, by accident, to the pace of a crowd. The board closed it for eleven days.

The repair did not add a pier. Workers fitted dampers under the deck, small weights that slide as the bridge moves and so take energy out of the sway. The parts came from a factory in Hull and were bolted in at night so the ferry could still turn by day. The job cost 180 thousand pounds.

After the dampers, the noon sway did not return. The board still posts a guard on the first Saturday of August, when the market is largest, and the guard can stop people if they bunch at the middle. There is no plan to replace the span. The thin deck still lets the ferry turn, which was the reason for the design, and the dampers are checked every spring.

### Questions 27·33

Complete the summary with NO MORE THAN TWO WORDS AND/OR A NUMBER from the passage.

27. The bridge joins the station to the Saturday _____.

28. A heavier bridge would have needed a _____ in the channel.

29. The deck swayed at _____, when it was full.

30. Walkers began to move _____.

31. The bridge was closed for _____ days.

32. The dampers are small _____.

33. The parts came from a factory in _____.

## Questions 34·37

Choose the correct letter, A, B, or C.

34. The bridge was made thin so that
    A it would sway less.
    B the ferry could still turn.
    C the market could close at noon.

35. The engineers concluded that the bridge
    A was about to collapse.
    B matched the pace of the crowd.
    C had been built from the wrong steel.

36. The dampers were fitted at night because
    A the factory in Hull only ships at night.
    B the ferry needed the channel by day.
    C paint will not dry in daylight.

37. A guard stands on the bridge
    A every market day.
    B on the first Saturday of August.
    C whenever the wind rises.

## Questions 38·40

Write TRUE, FALSE, or NOT GIVEN.

38. The repair cost 180 thousand pounds.

39. The board plans to replace the span.

40. The dampers have to be replaced every spring.

# Writing

## Task 1

Write at least 150 words.

The diagram below shows how a community compost scheme turns food scraps into soil for street trees. Summarise the information by selecting and reporting the main features.

## Task 2

Write at least 250 words.

Some people think universities should spend more on vocational courses than on research. To what extent do you agree or disagree?
